Subject: Statement of Work: Road Project
Location: Campus
Project #: 659-14-011

Scope of Work:

Provide all labor, materials, tools, equipment, transportation, qualified supervision, and all aspects of construction described here in other specific tasks as further defined by this request for Bid. The work includes, but not limited to milling of existing Asphalt roads as indicated by construction drawings, alteration to existing utility located with existing road (lower or raising valves, MH), repair to existing curb and storm drainage elements, paving areas with Asphalt as to create proper storm drainage as required, repair sidewalk, repair of sub base as required. Contractor to schedule major paving operations during the weekend or non-regular hours. Milling operations can take place during working hours as directed by the COR. For high traffic areas it too shall be done on weekends or non-regular working hours. Milling will be done by options and only by approval of the COR can more than one options be milled at one time. The contractor will have 7 days from the time milling is completed in one to complete paving operations. Areas to be paved our to be survey by a license land surveyor in order to determine where existing drainage issues are currently located. The new profile of the road will be determined by this survey. New pave surface and existing paved surface East of B2 and North of B42 shall be surveyed and submitted to the Government as part of O & M's manuals. All work, including final cleanup and completion of any punch list items, shall be performed within one hundred and eighty (180) calendar days of receipt of the Notice to Proceed. Work shall be performed in strict accordance with specifications and drawings.
